RIONE

Rione Brewpub was born in 2019 from the twenty-year experience of Il Bovaro, whose spirit still lives on, thanks to the mind and the skill of the same brewmaster who, in 1999, gave life to one of the first establishments in the Italian craft brewery and zero-kilometer production and dispensing system.

The venue, a portion of a former convent of Benedictine nuns dating back to the 13th century, has preserved, renewed, and expanded the tradition, developing a cuisine in line with the brewing proposal, in constant evolution.

For instance, the pizzeria offers a light and fat-free dough, with little yeast and 70 hours of maturation, allowing you to enjoy an extremely digestible pizza. Following the same criteria, the kitchen prepares generous first courses and tasty burgers with selected products that adhere to the principle of zero kilometers. Both the meat and the bread come from producers in the San Frediano district, or rather the Rione, where everything originates.

Welcome to Rione Brewpub, where every glass of beer and every bite of our delicacies tell a story, making your evenings a unique experience that celebrates taste, conviviality, and artisanal tradition.
